

Hire ZenMasterWorks to re-code websites to a verified perfect score.

Published September 25, 2026 by Ari Subana, ZenMasterWorks | zenmasterworks.com/hire-zenmasterworks.html

For web developers, design studios, companies, and corporations worldwide. We re-code slow websites to a verified 100/100/100/100 mobile score on [Google PageSpeed Insights](#), with SEO and AEO built in, as fast as 24–72 hours.

Contact: 1-844-ZEN-0018 | ari@zenmasterworks.com | [Start a project](#)

Why most websites underperform

Most sites aren't slow because of their design. They're slow because of their code, and PageSpeed Insights measures exactly that.

- **Page-builder bloat:** themes and builders load code the page never uses, on every visit.
- **Oversized images:** photos served far larger than the screen needs.
- **Render-blocking scripts:** the page waits on scripts before it can show anything.
- **No structured data:** Google has to guess what the business is.
- **Invisible to AI search:** ChatGPT, Perplexity, and Google AI Overviews can't cite what they can't read.
- **Accessibility gaps:** low-contrast text and sideways scrolling push visitors away and add legal risk.

What a ZenMasterWorks re-code delivers

The client keeps their logo, photos, and content. The code underneath is rebuilt, and every result can be checked with a public tool.

- **Clean, hand-coded HTML**, not a page builder or agency template.
- **Verified 100/100/100/100 mobile** across Performance, Accessibility, Best Practices, and SEO. [Test zenmasterworks.com](https://zenmasterworks.com).
- **SEO v3:** titles, meta descriptions, canonicals, BreadcrumbList schema, social cards, favicon set.
- **AEO v3:** AI-Readable Summary, Key Takeaways, and Cite This Page blocks.
- **Accessibility:** contrast at 4.5:1 or better, underlined links, no horizontal scrolling.
- **Indexing guidance** for Google Search Console and Bing Webmaster Tools.

Who we work with

Web developers & studios

- Sell verified optimization under your own brand, domain, and price.
- ZenMasterWorks fulfills every job behind the scenes.
- Founding partner cohort; applications reviewed individually.

[White-label program](#)

Companies & small businesses

- Homepage re-code from \$99; \$50 per additional page.
